### **DETAILED ACTION**

This Office action is in response to the amendment filed June 7, 2007 in which claim 1 was amended.

The previous rejection of the claims under 35 USC 112, first paragraph is withdrawn in view of the amendment to claim 1.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 6, 9 and 11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Upon further review of the claims and specification, it has been determined that the language "mixtures thereof", as it refers to the neocarboxylic acids, does not find support in the original field specification.
